

LOGMASTER

ELECTRONIC WORK DIARY. NHVR CERTIFIED AND ALSO COMPLIANT FOR USE IN WESTERN AUSTRALIA

Your own automated solution for peace of mind when it comes to managing driver fatigue and other compliance reporting obligations.

Real-time Transport Compliance

✓ Increase **Accuracy**

Remove uncertainty around data collection with real time input and updates. Geo tagging, shift duration logging and licence renewal reminders means you'll always have accurate records.

✓ Deploy and **Install**

Drivers download the Logmaster Australia app from Google Play store and Apple App Store and connect with your business. Logmaster does not require you to use specific equipment to stay compliant. Any smartphone or tablet running Android 7+ or iOS 12.5.5 is approved for use.

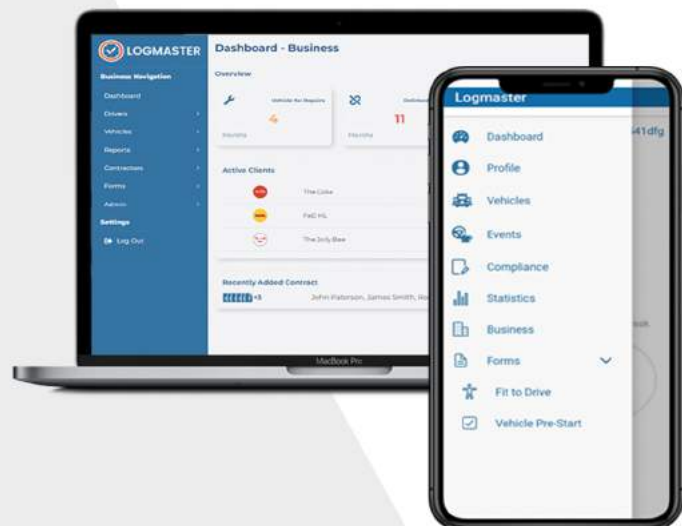

✓ Eliminate **Paperwork**

Switch from written work diaries that need to be delivered to the office. Logmaster automatically sends all driver work and rest information directly through to the record keeper. Mandatory driver fitness declarations and vehicle pre-start checklists are digitised to further remove the need for paperwork.

✓ Feature **Rich**

Logmaster offers additional features to make your EWD system even more beneficial to drivers and record keepers. Manual paper log entry, user depot structure configuration, driver statistics, fraud protection, record keeper alerts and out of coverage usability are just a few of the many improvements included in Logmaster EWD.

WORKS ON **Apple and Android** Smartphones and Tablets

LOGMASTER

Logmaster is designed to be the easy first choice when considering price, value, features, compatibility, additional compliance components and customisation.

THE SMART WAY TO AUTOMATE YOUR COMPLIANCE

FOR DRIVERS

LOGMASTER MOBILE APP

- Log all shift data including start, stop, rest break and finish times.
- Geo-tagging provides location data and guarantees accuracy of all records.
- Real-time alerts for managing breaks ensures fatigue compliance.
- Digital in-app driver fitness declarations and pre-start vehicle inspections appear to the driver at the right moment in the day as part of his work flow. These arrive to the record keeper in real-time and are exportable as PDF.
- View your working activity, records and historical data from the app or web portal.
- Share your logs and activity with multiple companies.

FOR TRANSPORT BUSINESSES

LOGMASTER MANAGEMENT PORTAL

- Easily prepare for safety and compliance audits with exportable reports.
- Stay up-to-date with driver licence and vehicle registration renewals with smart expiry alerts.
- See real-time data on driver fitness and vehicle pre-start inspection declarations.
- Paper work diary log sheets can be entered into the system and checked for breaches.
- Fatigue breach alerts for your entire fleet.
- Access your record keeper portal securely in the cloud on any device, anywhere, anytime.
- Subscription management for ad-hoc drivers, employees and contractors.
- The driver depot configuration tools makes it easy for each of your depots to filter out driver and vehicle information that is not relevant to them.
